THE ASSEMBLY PASSES THE LAW SCHOOL BILL DESPITE THE REGENTS OPPOSITION.

School bill, which has been strenuously opposed by Secretary Dewey of the Board of Regents, to-day passed the Assembly by a vote of 118 year to 6 nays. This is Assemblyman Austin's bill. It provides that to the jurisdiction of the Board of Regents, so far as examinations and the conferring of degrees are concerned, and allows the Board of Trustees of school to confer the degrees of Bachelor and

Master of Laws.

Mr. Robbins, of Allegany, led the debate in favor of the bill. He said that the passage of the measure simply meant extending to one of the largest as were accorded to similar institutions in this State. Speaking as a member of the Judiciary Committee, he said that the bill had received fair bearings and that the burden of proof tended to show that this was a just measure for the relief of an institution unjustly discriminated against.

Mr. Austin said that this school, unfortunately

for itself, was not connected with any wealthy give it the right of conferring its own degrees. The bill was intended to remedy the unjust discrimination which made the capital back of an institution, not the merits of the school, a basis for Mr. Husted, in urging the passage of the bill.

stated that he was a graduate of this law school, and that he considered it unfair that the largest law school in the State of New-York, if not in the circles. United States, should not be allowed to confer its

Messrs. Sanger and Laimbeer, graduates of the Columbia Law School, argued that the passage of the bill meant a breaking down of the educational standard set up by the Board of Regents. Mr. Laimbeer said that any differences existing between the New-York Law School and Columbia College might be settled among themselves withtween the New-York Law School and Columbia College might be settled among themselves without the intervention of the Legislature. Colonel Senger did not believe it right for the Legislature to pass a special bill, affecting one school only, and granting to one institution rights in opposition to the rules of the Rezents.

Mr. Palmer, of Schoharie, who had made a motion to strike out the enacting clause, said that the explanation of the bill made by Mr. Austin was satisfactory to him, and that he would withdraw the motion.

Assembly also passed the following bills,

Austin's-Defining the powers of Boards of visors in countles camprised with Austin's Liemining the powers of forcis of visors in counties comprised within a city, of comprising the whole of such city, and progressive the converse and respectively. Austin's Providing for the canvass and respectively in elections of city officers of the of New-York as constituted by the Greater

BLACK'S ADIRONDACK BILL.

THE NORTHERN PART OF THE STATE

Athany, March 24.-The Senate Finance Comm se and the Assembly Ways and Means Committee the acquisition of land in the Adirondack Fores a society for the preservation of the forests, alon appeared in its favor. The opposition was headed by Senators Chahoon, of Clinton County, and Brackett, of Saratoga, Mr. Chahoon said that this proposed legislation affected interests representing \$20,000,000. One-third of the people in his district were largely dependent on an industry which this bill proposed to desiroy. Every man in Northern New-York was opposed to the bill. He had never known the people throughout the whole section to

be so excited over any proposed legislation.

Judge R. I. Hand, of Elizabethtown, who represented the Adirondack Preserve Club, said the pas sage of this bill would destroy the paper industry in Northern New-York, and that there was no way to preserve the forests so perfectly as the land-owners themselves preserved them at their own-expense. The moment this act was signed all value would disappear from the land, as it would abso the State to an expenditure which no man coul measure. The \$1,000,000 appropriated represents but a small part of the cost of the lands to

but a small part of the cost of the lands to be taken, although the commissioners had absolute power to take and condemn such lands and pay such price as they saw fit.

Mr. Brackett said he had labored with his constituents and the Governor to reach an agreement on this bill, but as it was now framed every man in his district was opposed to it. The measure was to radical as to amount to a confiscation of property. If the condemnation feature of the hill was taken out, it would remove much of the opposition. H. G. Burleigh, representing the paper mills and, landowners in the preserve, said that \$5 per cent of the timber in the Adirondacks was hard timber. There were now 600 no acres of land for sale at \$1 in per acre. He also insisted that he forest was better taken care of by the Horestry Commission, was

ter taken care of by the individual owners than as the State.

Colonel Fox. of the Forestry Commission, was summoned and questioned as to the extent of the Adirondack Park. He said there were about 3,909,000 acres in the preserve, 100,000 of which were owned by the clubs, 135,000 by private owners and 600,000 by the State. About 500,000 acres of the land owned by private owners, he said, were now on the market for sale.

Judge Countryman, of Albany, representing the Mointyre Iron Company, said the act should be entitled an act of confiscation.

As there are others to be neard, the committee decided to adjourn the hearing until next Tuesday.

EXTERMINATING THE DEER.

Albany, March 24.-The State Fisheries, Game and Forest Commission has received an interesting re-port from P. N. Curran, postmaster of Jerden Falls, Lewis County, covering several towns in that county and the western part of Herkimer County. He I think there were more deer killed has season by hounding than in any other season in my recollection. The shortening of the hounding seaon the borders of the when hounding would begin and the mad rush for the hunting ground was something like the rush when a Western reservation is opened up. I am surprised to find that there are any deer left. I am of the opinion that deer killing should be problished for at least five

deer killing should be prohibited for at least five years, and hounding, which is a cruel sport, for all time to come."

The Commission received from Postmaster F W. Allen a report for the territory including the town of Bolton, Warren County. He says that this hunting year the period of hounding was limited to niteen days, as compared with thirty days last year yes there were thirty-one deer killed this year, against eighteen hist year, and of this number thirty, as compared with thirteen, were killed by hounding. Only one deer was killed this year by still hunting, and of the animals killed fifteen were bucks and sixteen does. Mr. Allen adds: "About twice as many deer were killed by the hounding season of 1886 as were killed during the period last season, and I am of the opinion that a few more such seasons will exterminate the deer in this section. The killing of does should be stopped."

THE ELLSWORTH BILL AMENDED. Albany, March 24 (Special).—The Senate Commit

tee on Codes to-day amended the Ellsworth Anti-Cartoon bill. One of the amendments provides that no person but the man or woman whose portrait is printed without his or her consent make a complaint. The maximum punishment make a companie. The maximum punishment also is to be one year's imprisonment and \$1.600 fine. A third amendment makes it a misied mean to circulate or publish a portrait without a person's consent. In this shape the Committee on Codes will report the bill favorably. IN THE CYCLING WORLD.

The players send to The Tribune the following account of their game: account of their game:

The defence of the fourteenth game was conducted on well known and sounder lines than were the tenth and twelfth games of the natch, in both of which Black relinquished a pawn to set up a counter attack upon White, which failed of suc-

White's twelfth move R-K, was the first novelty in the opening, and was made to retard Black's development, as well as to take possession of the open King's file. After sixteen moves on each side the situation was full of interesting possibilities, most of which, however, were intricate and diffiopen kings hie. After sixteen moves on each side the situation was full of interesting possibilities, most of which, however, were intricate and difficult to carry to a certain conclusion in any analysis within the time limit of actual play.

On his nineteenth and twentieth moves Black set up a strong counter attack on White's King, in the prosecution of which he kave up two pawns, but regained one of them on his twenty-fourth turn.

A little later Pilisbury won the exchange, after which Queens were exchanged and the ending entered into, in which, after a brilliant return of the exchange, Pilisbury won. Score—Pilisbury, 6. Showaiter, 8, drawn, 2. The fifteenth game will be played at the Hamilton Club to-morrow.

FORMIDABLE CROSS-COUNTRY COURSE. Mortimer Bishop and E. C. Carter, who have in charge the cross-country team champlonship, to be decided by the New-York Athletic Club on April system Morris Park last Sunday morning to examine the new steeplechase course, with a view to adapting it for the coming race. Superintendent Gorman, who is responsible for the many difficult jumps in the course, well over the ground with the committee and agreed to modify the more dangerous ones, so as to decrease the chance of accidents to the runners as much as possible. The most formidable jump is the water jump, twelve feet wide, preceded by a privet fence two feet wide and nearly two feet high, making the total distance to be covered about fifteen feet. The two "Liverpoois" in the course will also be serious impediments to the progress of the runners and will provide an excellent opportunity for pretty and effective fencing. The jump starts with a rail, is followed by a ditch four feet wide and finishes with a privet fence four feet high. In all, the course contains twelve jumps; and as the lap will have to be negotiated five times, sixty leaps will be required in all before the contest is ended. 3. visited Morris Park last Sunday morning to
